

RELIANT CENTER EXHIBIT AREA SPECIFICATIONS

3-6 MAY 2010
RELIANT CENTER
HOUSTON, TX USA

For additional specifications for Reliant Arena, please refer to the appropriate section within the Exhibitor Service Manual.

Reliant Center

Ceiling Height

Ceiling height in the front of the exhibit area is a uniform 25-feet (Booth numbers in each aisle beginning with 00 through 11). The remaining exhibit floor area is a uniform 30-feet (Booth numbers in each aisle beginning with 16 through 83). The height restrictions for your booth depend on the type of booth - linear, perimeter, walk-through, peninsula or island. Refer to the OTC Exhibit Regulations within Tab 2.

OTC and Freeman must be notified of all display equipment and booth materials requiring cranes for heavy lifts to determine that adequate erecting space is available without disturbing ceiling decorations.

Nothing may be suspended from or attached to the Reliant Center ceilings, columns, electrical ductwork, or any portion of the building.

Floor Load Limit

Reliant Center has a reinforced concrete floor load limit of 1,500 pounds per square foot; however, OTC must be notified of all equipment or freight requiring single lifts of more than 16,000 pounds.

Utilities

Electrical, Plumbing, Compressed Air and Telephone services are available.

Outdoor

Load Limit

The area is reinforced asphalt. ALL exhibitors whose freight or equipment exceeds 16,000 pounds single lift or 1,000 pounds per square foot must contact OTC Management in advance.

Utilities

Exhibitors desiring electricity, plumbing or compressed air must contact Harper Wood Electric. **ELECTRICITY WILL NOT BE AVAILABLE UNTIL SATURDAY, 1 May.**

Note:

Material Handling/Drayage

An Inbound Freight Target Schedule will be posted as soon as it becomes available. Questions regarding your target move-in should be sent directly to Freeman, 713.433.2400/ Fax: 713.433/9441.
